# MOSTAFA MAHMOUD

## Product Manager

(+20) 1158285899 | Cairo, Egypt

mostafa200984@gmail.com | linkedin.com/in/mustafa-mohamed-638375229 | mostafamahmouddba.github.io

## SUMMARY

Product Manager with a background in product and business analysis, building marketplace, e-commerce and SaaS products for the Saudi market. Turns company strategy into prioritized roadmaps, scopes features through market research and stakeholder input, and defines success metrics before anything ships. Experienced across the full product cycle, from discovery and PRDs to rollout, A/B testing and post-launch impact tracking.

## TECHNICAL EXPERIENCE

### Associate Product Manager — HelloApp (Othaim Holding)

**Nov 2025 – Present**

*Full Time · New Cairo, Egypt*

HelloApp, a service marketplace platform under Al Othaim Holding in Saudi Arabia, connects users with various on-demand services through a seamless digital experience.

Own product features end to end across the Customer App, Service Provider Portal and Admin Panel of a platform serving 850,000+ registered customers and 500+ orders a day, from company strategy through to post-launch impact.

- Worked on multiple initiatives that drove demand across key KPIs:
  - Cut order cancellations from **8% to 4%** of total orders.
  - Grew external orders to **4% of total orders** through External Booking.
  - Introduced chat reordering as a cross-selling channel, now **14% of total orders**.
- Translate company strategy into an actionable **product roadmap**, adding stakeholder requirements to it.
- **Prioritize** roadmap items by the business value they bring.
- **Scope** each feature through market research and input from relevant stakeholders.
- Define feature **traceability** and **success metrics** to judge each feature's success.
- Write **PRDs, user stories and acceptance criteria**.
- Publish **release notes**, track **feature rollout** progress, and run **A/B tests** where needed.
- Own and manage specific features within the **product roadmap** from ideation to **delivery**.
- Conduct **market research** and **competitive analysis** to identify opportunities and product improvements.
- Propose product solutions and discuss them with **stakeholders** to align with **business and market** needs.
- Create and manage product tickets and ensure proper implementation with the **development** team.
- Work closely with cross-functional teams to deliver features according to **product priorities**.
- Lead and coordinate **User Acceptance Testing (UAT)** to validate feature quality and readiness before release.
- Monitor feature **performance** and evaluate its impact on the **market** and user experience after launch.
- Use AI tools (**Claude Code, Claude Design, vibe coding**) to prototype features and validate ideas faster.

### Product Owner / Business Analyst — Makaseb

**Aug 2024 – Nov 2025**

*Full Time · Sheikh Zayed, Egypt*

Makaseb, a Saudi-based provider of e-commerce and digital marketing solutions, helping businesses grow through online store management, targeted advertising, and data-driven digital strategies.

Translated business goals into a product vision and roadmap, gathering stakeholder requirements and prioritizing the backlog by business value. Scoped features through market research and stakeholder input, and defined success criteria for each release. Owned the user stories and acceptance criteria, and drove delivery through sprint planning, grooming and release coordination.

- Took the product from **MVP definition** to a **live launch**.
- Define **product vision** and develop a clear **roadmap** aligned with market needs and business goals.
- Manage and prioritize the **Product Backlog** based on business requirements and user value.
- Create and refine **User Stories** with well-defined **Acceptance Criteria** to align with user needs.
- Work closely with development teams using **Agile/Scrum** to ensure efficient feature delivery.
- Lead **Sprint Planning, Grooming, and Retrospective** meetings to drive continuous improvement.
- Coordinate with **UX/UI, development, marketing, and sales** teams to align on product strategy.

### Business Analyst — HR_PATH

**Aug 2024 – Nov 2025**

*Part Time · Remote*

HR-Path, a Saudi company under HR LINK, offers HR solutions via its website and app, helping businesses manage HR.

- Delivered **5+ modules** of the HR web and mobile application.
- Overseeing the development of the HR application.
- Developed **user stories** and **functional specifications**.
- Writing and maintaining clear **documentation** for **system processes**.
- Managed **stakeholder communications** and expectations.
- Following up on project progress to ensure timely **delivery** and improvements.

### Product Owner / System Analyst — Bevatel
**Jun 2023 – Aug 2024**

*Full Time · Dokki, Egypt*

Bevatel, a Saudi provider of business communication solutions offering chat, voice, video, cloud call center, and file-sharing services to enhance team collaboration and customer engagement.

- Delivered **15+ features** across the call center and admin dashboards, owning a growing **product backlog**.
- Create professional **(SRS)** and **(BRD)** documentation with **diagrams**.
- Write **use cases & user stories**, refining **backlogs** and participating in **sprints**.
- Analyze what the **system lacks** in relation to competitors and find solutions.
- Communicate with **UI/UX and Developers** teams to present and follow tasks.

### Business Analyst — Bevatel (Ocoda)
**Sep 2022 – Aug 2023**

*Full Time · Dokki, Egypt*

Ocoda is a top Saudi digital solutions provider, offering services in web and mobile app development, digital marketing, e-commerce solutions, and UI/UX design.

- Gathered and **documented requirements** for web and mobile app projects and **business processes**.
- Developed **user stories**, **prototypes**, and **functional specifications**.
- Liaised between clients, vendors, and development teams.
- Managed **stakeholder communications** and expectations.

### Software & Marketing Consultant — Innovalz
**Oct 2019 – Sep 2022**

*Full Time · 6th of October, Egypt*

Innovalz is a leading company in Egypt specializing in advanced software solutions and innovative marketing strategies, helping clients improve business performance through the latest technologies and best practices.

## KEY PROJECTS & PRODUCTS

### Professional Products
